	__ 1 __ 2 __ LCL			___ LBS    ___ KGS
	__ 1 __ 2 __ LCL			___ LBS    ___ KGS

**Method 1 - FCL Only)** The shipper may obtain the VGM by weighing the loaded container, then subtracting the weight of the truck, chassis, and fuel.

**Method 2 - FCL Only)** The shipper may obtain the VGM by weighing the individual cartons, plus dunnage, lashing materials, etc., then adding the tare weight of the container.

**LCL)** The shipper obtains the VGM by weighing the individual cartons and the pallets and/or strapping material used.

**SPECIAL NOTE:** An estimated weight is not sufficient to meet the SOLAS regulations. The scale utilized must be certified and calibrated.

Weighing Company Name (if weighed by 3rd party):

Weighing Company Phone Number:

With my signature below, shipper certifies that the weights declared on this form are true and correct, and that weighing was conducted in compliance with SOLAS regulations.

Shipper agrees to Air-Sea Forwarders, Inc. terms and conditions of service.
